

Testing Shiny in 2018

- Repo: [rstudio/shiny-examples](#)

- ~150 apps

- Everyone on the team manually tested Apps for about 2 weeks
 - Must restart manual testing process for every new bug
 - Didn't know of all across-repo issues until release time (~6 months)

Not guarantee that everything has consistent environments

• Release time: (~ 10 team members) * (3+ weeks of time)
